

Case Study

Client: IP Casino

Location: Biloxi, MS

Background: These trees are located at the Imperial Casino. This particular live oak had severe damage from hurricane Katrina, with her 28 ft. waves. This tree was impacted and was in decline. Fulgham's Inc. Patented treatment was able to save this tree.

A large, light green watermark of the Fulgham's Inc. logo is centered on the page. It consists of the same stylized oak leaf and "FULGHAM'S INC." text as seen in the top logo, but rendered in a semi-transparent, faded style.

FULGHAM'S INC.
